Question and Answer I
IFB- 3160008306
The Mississippi Department of Public Safety
October 30, 2026

Question 1:
Can you provide a breakdown that includes the make and model for each instrument. It would allow us to price everything more accurately.

Answer: See pages 2-9 for Make and Model of each instrument to be serviced.

Question 2:
Must the legal entity submitting the bid itself hold ISO/IEC 17025 accreditation covering every required discipline and onsite field-calibration range, or may it rely on a named, appropriately accredited subcontract laboratory for some or all disciplines?

Answer: The legal entity submitting bid must hold ISO/IEC 17025 accreditation covering every required discipline and onsite field-calibration range

Question 3:
If a fully accredited laboratory bids as prime, may it propose a specialty subcontractor for defined logistical, scheduling, or ancillary services, subject to the prior written MDPS consent required by proposed contract Section 5?

Answer: The winner bidder must be fully accredited. No specialty subcontracting will be allowed.

Question 4:
Must the three references be contracts performed directly by the bidding legal entity, or may subcontractor past performance also be considered?

Answer: References must be entities that the bidding legal entity has done business directly with in the past, providing the services listed in the Invitation for bid.

I acknowledge and accept all terms and conditions of the Invitation for Bid (IFB), Amendments, Question & Answer by signing and returning the Question and Answer with the bid. I hereby certify that I am authorized to sign for my company.
