2. Explanation of why the commodity is the only one that can meet the needs of the Agency:

The Intoxilyzer 9000 breath alcohol instrument has unparalleled performance in accuracy, precision and interferent detection by using pulsed infrared technology, eliminating chopper motors or mechanical filter in the analytical system. This is the only breath alcohol instrument that uses four different IR wavelengths to detect and quantify alcohol in a deep lung air sample. This instrument is designed for mobile or stationary use. Failure to complete this purchase will significantly delay efforts to maintain and modernize the current evidentiary breath program. It will also impede timely repairs of existing instruments, resulting in extended downtime and will reduce operational readiness. Without the acquisition of additional instruments and replacement parts, the program's overall effectiveness may be compromised, posing potential risk to public and highway safety.

3. Explanation of why the source is the only person or entity that can provide the required commodity:

CMI, Inc is the sole manufacturer and distributor of all Intoxilyzer 9000 equipment, accessories, and spare/ replacement parts. CMI Intoxilyzer breath alcohol testers are used by several state testing programs for evidential DUI enforcement. CMI manufactures the Intoxilyzer 9000 brand of evidential and preliminary breath alcohol testing instruments CMI, Inc. The system boasts muti- wavelength measurements with no moving parts, dramatically reducing downtime and maintenance. CMI, Inc. does have a patent/copyright on equipment.

4. Explanation of why the amount to be expended for the commodity is reasonable:

Amount is within the expected price range of these items requested. Purchase of the CMI, Inc. Intoxilyzer 9000 equipment, accessories and shipping: $270,249.85

5. Efforts the Agency went through to obtain the best possible price for the commodity:

All options to obtain the best possible price for the commodities have been taken.

Any person or entity that objects and proposes that the commodity listed is not sole source and can be provided by another person or entity should submit a written notice to:

Britney Wesley
Procurement Department
3rd Floor, Suite 3600
209 Allen Stuart Drive, Pearl, MS 39208.

The notice should contain a detailed explanation of why the commodity is not a sole source procurement, as well as but not limited to, the following information:

Interested Party Information

- Contact Name, Phone Number, and email address:
- Company Website URL, if applicable

Objection to Sole Source Justification

- Interested parties must present specific objections to the Sole Source certification, including, but not limited to the following:
    a) A description of the commodity or commodities that the Interested Party believes is comparable to the CMI, Inc. Intoxilyzer 9000 equipment and related consumables.
    b) An explanation of why Interested Party's commodity or commodities can also meet the needs of the agency; and
    c) A list of sources from which Interested Party's commodity or commodities may be procured.

- If Interested Party claims that the CMI, Inc. Intoxilyzer 9000 and related consumables are available from a source other than CMI, Inc. the objection must contain a written statement from CMI, Inc. that the Interested Party is an authorized distributor or reseller of the CMI, Inc. Intoxilyzer 9000 and related consumables.

This information should be provided no later than Tuesday, December 8, 2026, at 5:00 p.m. local time. Response may be delivered by hand, via regular mail or overnight delivery.

If after a review of the submitted notice and documents, MSFL determines that the commodity or commodities in the proposed sole-source request can be provided by another person or entity, then MSFL will withdraw the sole source request publication from the procurement portal website and submit the procurement of the commodity or commodities to an advertised competitive bid process.

If MSFL determines after the review that there is only one (1) source for the required commodity or commodities, then MSFL will appeal to the Public Procurement Review Board (PPRB). MSFL will have the burden of proving that the commodity or commodities is only provided by one (1) source.
